### The Wonder of the Century

You Can't Afford to Miss It!

Almost everyone's coming to the World's Fair, so pack your bag and come along. You're bound to have the time of your life, no matter what your occupation or profession, where you live, or how old you are. That's what makes the Fair so interesting . . . there's so much that everyone wants to see and enjoy.

And what a breath-taking spectacle it is! A city of immense buildings, modern to the last degree . . . strange perhaps to unaccusgorgeously colorful that they are like brilliant jewels set in the blue water of Lake Michigan . . contrasting vividly with the more familiar architecture of the famous skyline of Chi-

An attempt to paint a word picture of the magnificence and beauty of the Fair Grounds alone would fill a book. Many more volumes would be required to give even an inkling of its many wonderful exhibits, its rollicking amusements, fascinating side shows and novelties . . . all provided for your entertainment.

Imagine such thrills as these: The great Sky Ride, 210 feet above the Fair; dancing girls from the Orient; the "Streets of Paris" wood and "movies in the making"; Enchanted Island, a fairyland for the youngsters. Multiply these a hundred-fold and you will have some idea of the fun and frolic in store for you.

Then there is the other side of the Fair . . . the dramatic story of one hundred years of human progress.

An almost endless succession of magnificent .. some of them historical in nature, contrasting today with a hundred years ago. Others disclosing, in actual operation, the wonderful aids to human comfort and progress that the wizards of science, mechanics, and chemistry have devised during the past

So you see, there are many reasons why you must take in the Fair. It will be great fun and real entertainment; it will be of rare educational value; and it will be something that in all probability none of us shall ever again have an opportunity to see. And while you are in Chicago, why not enjoy the many diversions this famous Vacation City has to offer?
