SPECIAL REDUCED FARES
 TO
A CENTURY of PROGRESS
 Chicago 1934

In the Belgian Village tilted streets, quaint houses, a spired church. unite to produce an air of almost unbelievable realism.

Opportunity knocks *twice!!*

No one had time to see all that the Chicago Worlds Fair had to show in 1933. Visitors kept returning for another look. The Fair was held over beyond its scheduled closing date and now it runs for a second year, an unprecedented occurrence with a major exposition in the United States.

Volumes could be written about A Century of Progress, and indeed they *have* been, but the fact that millions of people saw the Fair in 1933 and went home happy and well rewarded is proof that it was greatly worth while.

This year it is better than ever, and bigger. If you came last year you will surely want to come back. If you missed it, here is your chance again. Opportunity is knocking a *second* time.

From May 26 to November 1, 1934, this greatest of Worlds Fairs will play again to millions.

And so that everyone can see it this year the Erie Railroad is offering from all stations a series of round trip fares that are reduced to a minimum.

Our service has been augmented by the addition of another daily train in both directions between New York and Chicago and as a crowning comfort feature our through trains are being air conditioned. No dust, no cinders. An ideal temperature. It's always fair weather on the Erie.

Look!

at these low round-trip fares to CHICAGO and return—
